Pakistan's army has dominated the state for most of its 66 years. It has locked the country in an enduring rivalry with India to revise the maps in Kashmir and to resist India's slow but inevitable rise. To prosecute these dangerous policies, the army employs non-state actors under the security of its ever-expanding nuclear umbrella. The Pakistan army started three wars with India over Kashmir in 1947, 1965, and 1999 and failed to win any of them. It has sustained a proxy war in Kashmir since 1989 using Islamist militants, some of whom have now turned their guns against the Pakistani state. The Pakistan army has supported non-Islamist insurgencies throughout India as well as a country-wide Islamist terror campaign that have brought the two countries to the brink of war on several occasions. Despite Pakistan's efforts to coerce India, it has only achieved modest successes. Even though India vivisected Pakistan in 1971, Pakistan continues to see itself as India's equal and demands the world do the same. The tools that the army prefers to use, non-state actors under a nuclear umbrella, has brought international opprobrium upon the country and the army. In recent years, erstwhile proxies have turned their gun on the Pakistani state itself and its peoples. Why does the army persist in pursuing these revisionist policies that have come to imperil the very viability of the state itself, from which the army feeds? This volume argues that the answer lies, at least partially, in the strategic culture of the army. From the army's distorted view of history, the army is victorious as long as can resist India's purported hegemony and the territorial status quo. To acquiesce is defeat. Because the army is unlikely to abandon these preferences, the world must prepare for an ever more dangerous future Pakistan.

This book examines Pakistan's strategies in the war against Islamist armed groups that began

late 2001, following the 9/11 attacks. The significance of the war inside Pakistan can hardly be understated. Starting in the tribal territories adjacent to Afghanistan, Pakistan's war has come to engulf the majority of the country through a brutal campaign of suicide bombings. Thousands of Pakistani lives have been lost and the geostrategic balance of the region has been thrown into deep uncertainty. Pakistan's War on Terrorism is an account of a decade-long war following the 9/11 attacks, that is yet to be chronicled in systematic fashion as a campaign of military manoeuvre and terrorist reprisal. It is also an analytic account of Pakistan's strategic calculus during this time, both in military and political terms, and how these factors have been filtered by Pakistan's unique strategic culture. This text will be of great interest to students of Asian Politics, Terrorism and Political Violence, and Security Studies in general. ee

The Council on Foreign Relations sponsors Independent Task Forces to assess issues of current and critical importance to U.S. foreign policy and provide policymakers with concrete judgments and recommendations. Diverse in backgrounds and perspectives, Task Force members aim to reach a meaningful consensus on policy through private and non-partisan deliberations. Once launched, Task Forces are independent of CFR and solely responsible for the content of their reports. Task Force members are asked to join a consensus signifying that they endorse "the general policy thrust and judgments reached by the group, though not necessarily every finding and recommendation." Each Task Force member also has the option of putting forward an additional or a dissenting view. Members' affiliations are listed for identification purposes only and do not imply institutional endorsement. Task Force observers

participate in discussions, but are not asked to join the consensus.

This title was first published in 2002. Policy-makers in South Asia, the Middle East and the Asian Pacific, decision-makers in the OECD countries, organizations and specialists in academe, will all find this publication indispensable. It presents an integrated model of national security that emphasizes military and non-military determinants. In the light of this model, it analyzes Pakistan's defence policies over the last half-century and proposes a radical reform of Pakistan's military organization. In addition to offering a comprehensive look at national security, this book provides coherent, interrelated analysis of the key issues such as political leadership, social and economic development and foreign policy.

This path-breaking volume reveals a little-known aspect of how Lashkar-e-Tayyaba, a jihadist terrorist group, functions in Pakistan and beyond by translating and commenting upon a range of publications produced and disseminated by Dar-ul-Andlus, the publishing wing of LeT. Only a fraction of LeT's cadres ever see battle: most of them are despatched on nation-wide "prozelytising" (dawa) missions to convert Pakistanis to their particular interpretation of Islam, in support of which LeT has developed a sophisticated propagandist literature. This canon of Islamist texts is the most popular and potent weapon in LeT's arsenal, and its scrutiny affords insights into how and who the group recruits; LeT's justification for jihad; its vision of itself in global and regional politics; the enemies LeT identifies and the allies it cultivates; and how and

Download Free Pakistan S Strategic Culture

where it conducts its operations. Particular attention is paid to the role that LeT assigns to women by examining those writings which heap extravagant praise upon the mothers of aspirant jihadis, who bless their operations and martyrdom. It is only by understanding LeT's domestic functions as set out in these texts that one can begin to appreciate why Pakistan so fiercely supports it, despite mounting international pressure to disband the group.

This book applies strategic culture concepts to violent non-state actors (VNSAs) in a comparative analysis. In recent years, Al-Qaida in the Islamic Maghreb (AQIM) has become notorious for kidnapping Western hostages in north-western Africa and for its role in the short-lived Islamist takeover of Mali. The group, formerly known as the Salafist Group for Preaching and Combat, rebranded itself as an Al-Qaida franchise in 2007, leading to speculation of a change from its Algeria-centric agenda to an anti-Western one. This study compares and contrasts the ideas and behaviour of these two groups, using a strategic-cultural approach, and finds that, despite some commonalities, AQIM has a distinct strategic culture from Al-Qaida central, thereby debunking the notion of Al-Qaida as a monolithic movement. This is the first comparative analysis of violent non-state actors to employ a strategic-cultural approach and the first such study on AQIM. While strategic culture has traditionally been applied to states, this work adds to the emerging literature applying such approaches to non-state armed groups, and employs a novel conception of strategic culture consisting of narratives and practices. This book will be of much interest to students of strategic culture, political violence, Middle Eastern politics and Security Studies in general.

This paper combines three separate threads of analysis on culture and violent nonstate actors as a launching pad to spur further research into this critical arena of culture and security. Jim Smith lays out a series of templates for guiding analysis of culture and violent nonstate actors. Mark Long applies cultural analysis of radical Islam and alQaida in discussing the influences involved in the core al Qaida group's WMD decisions. Tom Johnson, in examining a tribal insurgent psychological campaign in Afghanistan, demonstrates that behavioral influences can be manipulated for significant effect in countering our efforts to gain stability and legitimacy for the Afghan government. James M. Smith, PhD, is the Director, USAF Institute for National Security Studies and Professor, Military Strategic Studies at the US Air Force Academy. Jerry Mark Long, PhD, is Associate Professor and Director, Middle East Studies, Honors College, Baylor University. Thomas H. Johnson is Research Professor at the Naval Postgraduate School.

As India prepares to take its place in shaping the course of an 'Asian century', there are increasing debates about its 'grand strategy' and its role in a future world order. This timely and topical book presents a range of historical and contemporary interpretations and case studies on the theme. Drawing upon rich and diverse narratives that have informed India's strategic discourse, security and foreign policy, it charts a new agenda for strategic thinking on postcolonial India from a non-Western perspective. Comprehensive and insightful, the work will prove indispensable to those in defence and strategic studies, foreign policy, political science, and modern Indian history. It will also interest policy-makers, think-tanks and diplomats.

This book is to date the first and only study on Pakistan's foreign policy decision making process. It discusses the hows and whys of its foreign policy as it developed in a particular fashion based on a certain self view generating a world view. Post 9/11 change requires a fundamental change in self image and world view based on that new self image that goes beyond the act of becoming U.S. ally in Afghanistan or abandoning the policy of supporting Taliban. The main topic of the study is identification of that change, its requirements and some basic suggestions as to how to go about it. The book traces the historical International and Domestic context of Pakistan's Post 9/11 Afghan Policy. It analyzes the regional impact of the decision, the domestic debate that it generated and concludes with identifications of implications for changes in Pakistan, required for sustenance of its changed policy.
