In four empirical studies, this cumulative work provides valuable insights for marketing executives of statutory health insurance funds and social media responsible. Paper I and II provide evidence about the importance and interplay of price and corporate reputation on the market of statutory health insurance. The second part changes perspective to corporate communication issues in the social media environment. By introducing the “ social media brand value chain ” paper III conducts a literature review of state of the art social media research. By means of a

field experiment on Facebook, paper IV shows that brands do not necessarily have to communicate via their brand fan pages in a highly interactive and vivid way to positively influence attitudinal measures among their fan base.

The Dark Side of Social Media: Psychological, Managerial, and Societal Perspectives examines how social media can negatively affect our lives. The book tackles issues related to social media such as emotional and mental health, shortened attention spans, selective self-presentation and narcissism, the declining quality of interpersonal relationships, privacy and security, cyberstalking, cyberbullying, misinformation and online deception, and negative peer effects. It goes on to discuss social media and companies (loss of power, challenging control mechanisms) and societies as a whole (fake news, chatbots, changes in the workplace). The Dark Side of Social Media: Psychological, Managerial, and Societal Perspectives empowers readers to have a more holistic understanding of the consequences of utilizing social media. It does not necessarily argue that social media is a bad development, but rather serves to complement the numerous empirical findings on the "bright side" of social media with a cautionary view on the negative developments. Focuses on interpersonal communication through social media Focuses on psychology of media effects Explores social media issues on both an individual and societal level Documents the rise of social media from niche phenomenon to mass market Examines the differences between creating and consuming content

Essay from the year 2015 in the subject Communications - Public Relations, Advertising, Marketing, Social Media, grade: .96, The University of Akron, language: English, abstract: What is social media? Social media is any media of communication that allows users to create or share content with other people in their network. Over the past decade and a half, social media has grown in size and popularity. All over the world people are messaging each other through instant messaging applications like " Kik " and " Facebook Messenger " , sending each other silly photos with dog ears and a dog nose with applications like " Snapchat " , and tagging each other in various memes on Facebook and Instagram. With the recent introduction of social media, communicating with people has become easier than ever. With the push of a button, people can communicate with others across the globe in an instant. With the invention of social media, a new pseudo-language has been created ; using words like " LOL, ROFL, and, LMAO " and sayings like " Hit me up, what's the move?, and Sliding into the DM ' s " , and sending Emojis. All these words have different meaning now than they did 10 years. Ultimately, social media has changed how we as a society communicate in the modern age, but with the strengthened communication over the internet over the recent years, our face to face conversation skills have fallen short. [...]

Download File PDF Paper On Social Media

Corporate Communication, CRM, Market Research, Social Media, grade: 1,0, Fairleigh Dickinson University, Metropolitan Campus, course: Human Resources, language: English, abstract: The following paper is concerned with the use of social media in the human resources departments of companies. To do this, the first part of the paper explains the different generations and their thinking about social media. It is necessary to define social media that people understand further in the paper what it means. The main part of the paper focuses on the use of social media in the hiring process and the use for current employees. There will be a description of the use for employers and candidates/employees. The result of the research shows that social media makes it easier for employers to find qualified candidates. Also, current employees should be allowed to use social media while they are at work, but with limitations.

Literature Review from the year 2020 in the subject Communications - Public Relations, Advertising, Marketing, Social Media, grade: 1.1, language: English, abstract: In this paper, the researcher identifies the social media trends from the number of paper within scope, analyzing their content in order to synthesize from the variation of researches and determines the gap making this review a potential contributor for future researches. Included in this paper the most commonly used information sites which manifest convergent features. Social media is a platform to share information that is very liked by everyone nowadays because some of the facilities that make it easier for us to communicate with each other, share documents, chat and even create a community. A data mining approach is used to determine the trends in social media as information in getting type of information; information sharing; and trends of social media used by different organizations. The results show that one's motivation in sharing information tends to be consistent for each type of information that is to share the impression of social media users on a matter. Social media connect different races and making distant communication reachable in a shortest period of time. It has been trends already around the world to maximize the utilization of social media through variety of information sites. It is a very useful vehicle to gather data addressing the need of the internet citizens (netizens) in this contemporary era. with motivating features, essentialities and importance, there is a growing number of users interacting with online social networks. The emerge of different sites making the social media continuously increasing its potential, to provide useful geographic information to either replace or augment traditional methods of data collection has been recognized for some years. It is not only data collection but sharing of information of the same interest which reveals the active interacti

Essay from the year 2017 in the subject Business economics - Marketing, Corporate Communication, CRM, Market Research, Social Media, grade: 1.8, , language: English, abstract: In the contemporary world, there is no business without communication. To most entrepreneurs in the 21st century, social media use in business is seemingly the "next big thing". The emergence of an online technology that allows reaching of big crowds without necessarily meeting them has presented a temporary yet essential fad that ought to be appropriately made use of while it is still in the spotlight. To this group of entrepreneurs, reaching out the virtual market has presented itself as a stepping-stone to, not only establish their brands, but also to make it earn acceptance in the market. Others have even gone further to establish online shops where customers can easily order and wait for their products to be

delivered without having to necessarily visit the product stores. Unfortunately, however, there exists a population to which social media marketing is a buzzword without any practical advantage and steep. They envision it to be a complicated learning curve that further makes their business life unexpectedly complex. With regards to the different approaches to social media, this paper will look at both the negative and the positive aspects of using social media as a tool for running business operations.

Seminar paper from the year 2010 in the subject Business economics - Business Management, Corporate Governance, grade: 1,3, University of applied sciences, Marl, language: English, abstract: 1 Introduction 1.1 Problem Definition The relevance of web 2.0 will increase enormously until 2012. This view is shared by 83 % of the 110 companies that were interviewed within the scope of a study carried out by the agency creative360 in cooperation with the International School of Management. Considering the economic circumstances companies face with respect to the buyer's market more and more effort has to be made to maintain competitiveness. Supply exceeds demand, thus forcing companies to extend their marketing activities in order to receive the consumer's attention for both itself and its products on the one hand. On the other hand, adequate customer service has to be provided, which is inevitable for obtaining customer loyalty. Especially in the field of marketing, traditional techniques of advertising seem to have lost importance. According to the survey of the Monitor Economic Communication in 2010 television is solely used by 20 %, whereas print media is also used by only 60 % of the respondents. Actually, these are considered as mass advertising, appearing rather annoying to the consumers, likewise referred to as interruption marketing. In addition, call centers or email support as point of contact in case of problems are regarded as insufficiently available and requiring long hold time. Due to the rapid progress of the internet a new communication platform has been spooned - social media, the web 2.0. While there were 45 million of internet users in 1997, the number is predicted to exceed 2 billion until the end of the year 2010. Accordingly, what does social media explicitly mean, how can it be used and which benefit can be generated? 1.2 Objectives This seminar paper aims at giving an insight into the wide spectrum of social media, proposing to demonstrate its re

Thanks to Facebook and Instagram, our younger selves have been captured and preserved online. But what happens, Kate Eichhorn asks, when we can ' t leave our most embarrassing moments behind? Rather than a childhood cut short by a loss of innocence, the real crisis of the digital age may be the specter of a childhood that can never be forgotten.
