The terrible conflict that dominated the mid-19th century, the Crimean War, killed at least 800,000 men and pitted Russia against a formidable coalition of Britain, France and the Ottoman Empire. It was a war for territory, provoked by fear that if the Ottoman Empire were to collapse then Russia could control a huge swathe of land from the Balkans to the Persian Gulf.

The passage of Eupatoria takes its name from the Crimean town where the Franco-British allies landed in September 1854. It was also the scene of the Battle of Eupatoria during which the Ottomans and their allies succeeded in defeating a Russian assault.

In 1854, a quarter of a million British soldiers headed east to fight in the Crimean War. Together with their French and Turkish allies, the goal was to destroy the Russian Navy, together with their naval and military facilities in Sevastopol, thus keeping them from the seizing control of the Black Sea and thence the Mediterranean. They succeeded, but not without considerable hardship, suffering and loss of life - over twenty-one thousand British men fell to enemy fire, accidents and disease. Many first-hand accounts of the war were penned by British officers, but few were written by the common soldiers, as most were illiterate. As such, this account by Private Richard Barnham offers a rare insight into the daily lives of the soldiers serving in the Crimea. The passages he recorded during the war are not always an easy read, detailing as they do many of the hardships of campaign life, the devastation of the cholera outbreak (which killed almost twice the number of those who died in battle) and the horrors of the military engagements. But Richard also gives great insight into the richness of the Crimean countryside and its people, together with the camaraderie of the soldiers themselves and the patriotic fervour that propelled such men to fight for their country.

Please note that the maps available in the print edition do not appear in the ebook. From "the great storyteller of modern Russian historians," (Financial Times) the definitive account of the forgotten war that shaped the modern age The Charge of the Light Brigade, Florence Nightingale—these are the enduring icons of the Crimean War. Less well-known is that this savage war (1853-1856) killed almost a million soldiers and countless civilians; that it enmeshed four great empires—the British, French, Turkish, and Russian—in a battle over religion as well as territory; that it fixed the fault lines between Russia and the West; that it set in motion the conflicts that would dominate the century to come. In this masterly history, Orlando Figes reconstructs the first full conflagration of modernity, a global industrialized struggle fought with unusual ferocity and incompetence. Drawing on untapped Russian and Ottoman as well as European sources, Figes vividly depicts the world at war, from the palaces of St. Petersburg to the holy sites of Jerusalem; from the young Tolstoy reporting in Sevastopol to Tsar Nicolas, haunted by dreams of religious salvation; from the ordinary soldiers and nurses on the battlefields to the women and children in towns under siege.. Original, magisterial, alive with voices of the time, The Crimean War is a historical tour de force whose depiction of ethnic cleansing and the West's relations with the Muslim world resonates with contemporary overtones. At once a rigorous, original study and a sweeping, panoramic narrative, The Crimean War is the definitive account of the war that mapped the terrain for today's world.

Florence Nightingale is famous as the “lady with the lamp” in the Crimean War, 1854—56. There is a massive amount of literature on this work, but, as editor Lynn McDonald shows, it is often erroneous, and films and press reporting on it have been even less accurate. The Crimean War reports on Nightingale's correspondence from the war hospitals and on the staggering amount of work she did post-war to ensure that the appalling death rate from disease (higher than that from bullets) did not recur. This volume contains much on Nightingale's efforts to achieve real reforms. Her well-known, and relatively "sanitized", evidence to the royal commission on the war is compared with her confidential, much franker, and very thorough Notes on the Health of the British Army, where the full horrors of disease and neglect are laid out, with the names of those responsible.
