PCL 5 Printer Language Technical - Hewlett Packard

Printer Job Language (P JL) is a method developed by Hewlett-Packard for switching printer languages at the job level, and for status readback between the printer and the host computer. P JL adds job level controls, such as printer language switching, job separation, environment, status readback, device attendance and file system commands.

Printer Job Language - Wikipedia

Printer Command Language, more commonly referred to as PCL, is a page description language developed by Hewlett-Packard as a printer protocol and has become a de facto industry standard. Originally developed for early inkjet printers in 1984, PCL has been released in varying levels for thermal, matrix, and page printers. HP-GL/2 and P JL are supported by later versions of PCL. PCL is occasionally and incorrectly said to be an abbreviation for Printer Control Language which actually is another ter
