[Plantation - Wikipedia](#)

A plantation is a large farm or estate, usually in a tropical or subtropical country, where crops that are not consumed for food are grown for sale in distant markets, rather than for local consumption . Such crops include cotton, coffee, tobacco, sugar cane, sisal, and various oil seeds and rubber trees. Farms that produce alfalfa, Lespedeza, clover, and other forage crops are usually not called plantations.

[What is a Plantation Crop? - GKToday](#)

Plantation crops were determined by soil and climate, with tobacco, cotton, rice, indigo, and sugarcane, for example, each predominating in a certain zone of the southeastern colonies of North America. The labour-intensive plantation declined abruptly in the United States with the abolition of slavery. Most plantations were divided into small farms operated by individual owners or tenant farmers; others continued to operate as large plantations that were worked by wage-labourers or ...

They include crops such as areca nut, coconut, cashew, oil palm, coffee, tea and rubber. On the other hand, the smaller plantation crops include cocoa. The total coverage of plantation crops is much less. These plants are mainly confined to small holdings.

Plantation Crops in India | Crop Cultivation in India

Plantations grow cash crops, mostly for export, and less for local use. Crops grown on plantations include banana, sugarcane, coffee, tea, cotton and tobacco. Some of the problems with plantations come from the fact that they are monocultures, that is there is only one kind of crop that is grown there.

Plantation - Simple English Wikipedia, the free encyclopedia

Definition in traditional sense – Plantation crops are those which are cultivated on extensive scale like tea, coffee and rubber. Here the term plantation or estate is used synonymously. Estate or plantation means large scale agricultural unit usually of a single crop.

6. Plantation Crops (HPH 204) 3(2+1) - Bharsar Students

This book traces the social, political and evolutionary history of seven major plantation crops – sugarcane, banana, cotton, tea, tobacco, coffee and rubber. It describes how all of these were domesticated in antiquity and grown by small landowners for thousands of years before European traders and colonists sought to make a profit out of them.

Plantation Crops, Plunder and Power: Evolution and ...

Because the economy of the South depended on the cultivation of crops, the need for agricultural labor led to the establishment of slavery. Plantation agriculture is a form of commercial farming where crops are grown for profit.

Most plantations were divided into small farms operated by individual owners or tenant farmers; others ... Plantation agriculture is a form of commercial ...

plantation agriculture

The ICAR-Central Plantation Crops Research Institute (ICAR-CPCRI) is a research institute established for coconut, arecanut and cocoa. It is one of the agricultural research institutes in the National Agricultural Research System (NARS) under the Indian Council of Agricultural Research (ICAR) since 1970.
