Operating Handbook

With new capabilities and a great price point, the new S-TEC autopilot leapfrogs its predecessors

Genesys announced in late July its new S-TEC 3100 digital autopilot. The 3100 will effectively take the place of the popular S-TEC 55X

Read Free S Tec 50 Autopilot

by costing slightly less while providing a great deal of capability, of which its legacy autopilots could only dream.

Proposals for new autopilot upgrades can be shocking.

Even entry-level wing-leveling systems start at \$10,000, not including installation.

But that won't buy much. Higher-end models with add-on options can easily snowball a project to \$40,000. That's roughly the cost of an
