~~Trove~~

I would then define the theory of culture as the study of relationships between elements in a whole way of life. The analysis of culture is the attempt to discover the nature of the organization which is the complex of these relationships. Analysis of particular works or institutions is, in this context, analysis of their essential kind of ...

4 Structural Analysis: In Theory and Practice 1.2 Representation of forces A force is an action that tends to maintain or change the position of a structure. The forces acting on a structure are the applied loads, consisting of both dead and imposed loads, and support reactions. As shown in Figure 1.1 , the
