Mining again was starting to pick up the pieces and with new improvements, they were able to dig deeper mines into the earth. They also started to use acids to separate gold from silver. It was around this time that the new world also started to play a role in mining Side note: the title is from the wheel of time books, I just thought it fit.

precious metals, along with ranching , was a driving factor in the Westward Expansion to the Pacific coast.

Mining - Wikipedia

Large scale coal mining began in the late 1830s when the General Mining Association (GMA), a group of English mining investors, obtained a coal mining monopoly in Nova Scotia. They imported the latest in mining technology including steam water pumps and railways to develop large mines in the Stellarton area of Pictou County, Nova Scotia , including the Foord Pit which by 1866 was the deepest coal mine in the world. [39]
