A brightly illustrated board book introduces young nature enthusiasts to the preliminary steps to becoming a gardener, combining interactive lift-flaps with elementary facts about creating and caring for a garden.

This educational and enjoyable book helps children understand how to plant bulbs, seeds, and seedlings, and nurture their growth. Lois Ehlert's bold collage illustrations include six pages that present all the flowers of each color of the rainbow.

The Little Gardener is an engaging illustrated guide for parents, grandparents, caregivers, and educators who want to help children explore the natural world through gardening. Part how-to, part teaching tool,

Read Online The Little Gardener Teenie Greenies

and part inspiration, *The Little Gardener* is a thoughtful combination of detailed instructions, tips, anecdotes, and seasonal activities designed to connect gardeners to natural systems. With fun projects, useful charts, and creative journal prompts, *The Little Gardener* shows gardeners of all ages how to envision and build their garden together by making the process an adventure to be treasured, with much to learn along the way.

There was once a little gardener and his garden meant everything to him. He worked hard, very hard, but he was just too little (or at least he felt he was). In this gentle, beautiful tale, Emily Hughes, the celebrated author of *Wild*, departs from the larger than life *Wild-girl* of her debut to pursue a littler than life Gardener, in a story that teaches us just how important it is to persist and try, no matter what the odds. With delicately woven tapestries of illustrated magic, Hughes once again transports us to a world not unlike our own, while still brimming with fantasy and wonder.

Encourages babies and toddlers to aim high and celebrate life while pulling the tabs, spinning the wheels, feeling the textures, and lifting the flaps in this interactive book.

A first garden story board book that reveals how plants grow with lift-the-flaps and a pullout height chart. Teach your child how a tiny seed grows into a flower in this fascinating lift-the-flap garden story. A pullout height chart ends the book--a great way for children to remember how a sunflower grows, and to measure how fast your child grows, too! Through illustrations, photography, and flaps, sixteen delightful board book pages reveal the wonder of how plants grow as you follow the story of a mystery seed. How was it planted? What does it need? What will it become? As days go by, it's hard to imagine the tiny shoot will ever grow into a big, strong plant. Could it magically become the tallest of all the garden flowers? Flaps unfold to show plants growing, creatures hiding, and what's happening underground. The book includes very simple gardening projects and facts about garden creatures (which ones are good for plants, and which ones are bad), and children will find out what a pollinator is, and how to attract pollinators to the garden. The perfect gift for aspiring gardeners, complete with a height chart.

Spring is a time when things are born and grow. And as with any season, there are holidays to celebrate. Inform early readers about all that happens in spring with this light and fun series. A table of contents, chapter headings, vibrant photos, and simple text help guide beginning readers through each book. Additional features include a craft activity, a phonetic glossary, an index, and sources for further research. This engaging series will be a great resource for all things spring.

Introduces young readers to the letters of the alphabet.

I See Flowers introduces emergent readers to a variety of colorful flowers while providing them with a supportive first nonfiction reading experience. Carefully crafted text uses high-frequency words, repetitive sentence patterns, and strong visual references to support emergent readers, making sure they aren't facing too many challenges at once.

Introduces gardens and gardening, including how a seed grows into a plant, how fruits and vegetables form, and what animals and insects also live in a garden.
