In his book Liker calls the Toyota Way "a system designed to  
provide the tools for people to continually improve their work."  
According to Liker, the 14 principles of The Toyota Way are  
organized in four sections: (1) long-term philosophy, (2) the  
right process will produce the right results, (3) add value to  
the organization by developing your people, and (4)  
continuously solving root problems drives organizational  
learning. Long-term philosophy

The Toyota Way - Wikipedia

As with 5S, sustaining is the hardest part of being Lean. "The Toyota Way for Continuous Improvement" brings the understanding that the PDCA cycle is the necessary part in a CI process. As a consultant I notice that the CA part of this cycle is often forgotten and the operation mostly falls back to its old levels.
