TomTom Gps User Manuals Download | ManualsLib

When you first start your TomTom navigation device, the device may need a few minutes to determine your GPS position and show your current position on the map. In future, your position will be found much faster, usually within a few seconds. To ensure good GPS reception, you should use your device outdoors and keep your device upright.

TomTom Navigator will now plan a route from your current GPS location to the destination you have just entered. Once the route has been calculated, tap Done to return to the main screen. Please note: route planning will not start unless TomTom Navigator knows your current location – which requires a valid GPS signal.
