...

Trane's XE90 furnaces are housed in a heavy-duty cabinet made from galvanised steel measuring 40 inches in height and 28 inches in depth. The width of the cabinet varies by model. Each furnace can be positioned either vertically or horizontally and is fitted with a one-piece heat exchanger, which eliminates the dangers of cracking and fracturing associated with welded heat exchangers. The XE90 ...

The Trane XE 90 has a self-diagnosis capability that utilizes a controller search system to identify any problems that need to be resolved. When there is a power or fuel interruption, the system is designed to reset automatically. The unit is available in upflow and downflow models. The hot surface igniter replaces a pilot light.
