Air / Dirt Separation and Dosing Solutions | Flamco Group
SpiroCombi deaerators/dirt separators are designed for the simultaneous removal of air and dirt from water systems. These remove air, microbubbles and dirt particles from system water continuously. In untreated heating and cooling systems, air causes problems such as flow interruptions or even complete system failure.

SpiroCombi - Air deaerator & Dirt separator - Spirotech
Keep out unwanted elements such as water, dirt and debris with louvre vents including the aluminium louvre vent, plastic louvre vent and louvre vent GAA. To increase natural ventilation and prevent condensation add air brick vents, floor vents or ventilation grilles such as the round ducting louvred ventilation grille.

Flamcovent Clean IsoPlus | Flamco Group
We provide a range of automatic air vents and separators that deliver industry-leading air, dirt, sludge and magnetite separation capabilities for heating and cooling water systems. They benefit from our innovative 'helistill' and 'cyclonic' technologies that help prevent damage to critical HVAC components, such as boilers, pumps and valves, reduce maintenance demands and extend the lifespan of any type of installation.

Automatic air vents and separators - ESC
The Stourflex range of air and dirt separators provide an ideal solution to the problems of air and dirt in heating and chilled water systems - if air and dirt are not removed, system efficiency is severely reduced. Excess air in a system causes noise and oxidisation which in turn leads to the formation of dirt.
