Amazon.com: Water 4.0: The Past, Present, and Future of ...

To define what exactly Water 4.0 is, we have to look at Industry 4.0 and what came before it – i.e., Industry 1.0, 2.0, and 3.0. Industry 1.0 – This was the first Industrial Revolution and involved the mechanization of production using water and steam power. Think water mills and steam engines.

Is Water 4.0 The Future? - Water Online

The water industry is in a phase where it wants to get smarter. There have been recent steps towards a “digital water industry” being driven by political will. However, the concept of the smart water industry - or Water 4.0 - has to be driven from the bottom.

Water 4.0 and the wastewater cycle - WWT

May 2, 2014. This article appeared in Berkeley Engineer magazine, Spring 2014. Civil and environmental engineering professor David Sedlak’s new book, Water 4.0: The Past, Present and Future of the World’s Most Vital Resource (Yale University Press, 2014), calls for major changes in urban water systems. “If they want to realize the full benefits of conservation, water utilities will have to accept the idea that they are no longer in the business of selling water,”
