The Whippet is a dog breed of medium size. They are a sighthound breed that originated in England, where they descended from Greyhounds. Whippets today still strongly resemble a smaller Greyhound. Part of the Hound group, Whippets have relatively few health problems other than arrhythmia. Whippets also participate in dog sports such as lure coursing, agility, dock diving and flyball. The name is derived from an early 17th-century word, now obsolete, meaning "to move briskly". There has been cont

Whippets like to be with you and even want to be touching you when they sleep. They are gentle and non-aggressive. The biggest danger to people is their wagging tail that can leave welts on you once it gets going and smacks your leg. They are hopeless as protection dogs. History: The whippet hails from humble origins in 18th century Great Britain.

~~Whippet Dog Breed — Facts and Personality Traits | Hill's Pet~~

The Whippet temperament and personality has been shaped by the historical background of the breed. Whippets, despite their working class roots, were never kenneled in the manner of the great hunting hound packs, nor were they expected to live outside in rough conditions and be guard dogs.
